

FOR IMMEDIATE RELEASE

## **Now you can customize your RAPTAIR-MF Diesel Engine Driven Multifunction System**

Nanaimo, BC., June 16, 2015 - VMAC is pleased to announce that the RAPTAIR-MF diesel engine driven multifunction system has become fully customizable and adaptable to fit various business needs of mobile service technicians. The company made a significant step towards product customization in the mobile power industry, allowing their customers to build personalized power systems.

*"Our customers only want to pay for the components they use so we wanted to give them the option to build a multifunction system that fits their needs."* said Dan Hutchinson, Vice President of Sales and Marketing at VMAC Global Technology Inc.

The core of the RAPTAIR-MF consists of a Kubota Diesel Engine and 45 CFM Rotary Screw Air Compressor, that could be complemented with 8,000 Watt A/C generator, 300 Amp DC Welder, Battery Booster, Battery Charger and PTO Port with 3 different Hydraulic Pump options. VMAC also offers optional Cold Climate Protection.

The RAPTAIR-MF is a customizable multifunction system allowing you to run most air tools, handle welding needs, boost and charge batteries, and provide a reliable source of power. All of this in a compact package that maximizes customer value across the world.

*"Product customization is becoming our primary focus in the industry. It is allowing us to provide our customers with more value to their businesses, improve their ROI, and make their businesses more prosperous"* - said Hutchinson.

## About V-MAC

V-MAC engineers and manufactures compact, powerful compressed air solutions for clients in the mobile-mechanic, tire service, utilities, mining and gas, and construction industries. Beginning almost 30 years ago with a contract to design a jet engine for the Canadian military V-MAC has grown into the world-wide leader in manufacturing UNDERHOOD air compressor systems. These award-winning systems use less space, are light-weight and powerful. V-MAC is one of only a few companies in North America that completely manufactures its own rotary screw compressors, and also designs custom solutions for multi-national OEM clients. V-MAC has won multiple awards including 75 Best Workplaces in Canada and the B.C. Exporter of the Year award.
