

## VMAC Recognized by Finning as 2017 Innovative Solutions Supplier of the Year

Nanaimo, BC, April 16, 2018 – Following VMAC’s re-branding announcement to ‘Air Innovated’, the leader in mobile compressed air innovation, VMAC has been recognized by Finning International Inc with the prestigious 2017 Innovative Solutions Supplier of the Year award.

“The entire VMAC team is proud to be recognized with this award from Finning,” says Gordon Duval, VMAC’s VP of Sales and Marketing. “It’s extremely validating to be awarded Finning’s Innovative Solutions Supplier of the Year award just weeks following VMAC’s rebranding and promise to be the leader in mobile compressed air innovation.”

This Innovative Solutions Supplier of the Year award is presented annually at Finning’s Supplier Recognition Event. VMAC has been a Finning supplier for the past 20 years, supplying UNDERHOOD air compressors used on Finning’s fleet of service trucks. Most recently, VMAC began supplying Finning with VMAC Multifunction Power Systems, the lightest weight, most compact and customizable multi-power system available.

The VMAC Multifunction Oilman Series Power System, used by Finning, combines an air compressor, generator, welder, battery booster/charger, PTO and a positive air shutoff system, powered by a diesel engine. As the world’s largest CAT service company, Finning requested VMAC to customize its Multifunction Power System with CAT engine power. VMAC was able to respond quickly, with field testing trials beginning just six weeks after the initial concept was requested. VMAC began supplying these CAT-powered VMAC Multifunction Power Systems exclusively to Finning in March 2018 and will begin commercial production in Fall 2018.

“CAT and Finning are examples of how VMAC partners are able to work with us to leverage VMAC’s in-house design, engineering, and manufacturing capabilities to improve existing products, and to develop new innovative systems to meet changing demands,” notes Gordon Duval. “This Innovative Solutions Supplier of the Year award from Finning further recognizes that VMAC is able to deliver innovative products to companies who need custom air compressor and multi-power system solutions.”
